English 11
Developmental Module: Tips for Viewing Course Presentations

Throughout the course, you will find interactive presentations used to deliver content. Most presentations will follow the layout shown below; however, the presentation layout will vary based on the nature of the presentation. In most instances, audio will be included in the presentation.

Resources Area: Use this tool to view presentation resources.

All presentations include a .pdf of the presentation.

Tabs: Changing the tab will change the sidebar view. Selecting *Notes* will allow you to view the presentation notes.

Menu: This is the list of slides in the presentation. Clicking on one of the slide names allows you to visit that slide directly.

Search: Type in a keyword to search the presentation notes for a concept.

Volume: Use the slider to change the presentation volume.

Play: Play the current slide.

Player Buttons: Replay the current slide or move backwards and forwards in the presentation.
