Module 6: Ocean Water Chemistry
Authentic Assessment

Directions

For the project you would like funded, develop appropriate descriptions and graphics/photos that illustrate the project clearly and effectively. Include a summary of the project, including your reasoning for its importance, the scope of its impact, how many people it will help, and what aspect of the environment your project targets. Your web page must include graphics and facts that have been researched from reliable sources. The information you gather will be used to create a basic webpage layout.

Your webpage layout can be a mock-up or design document of the webpage; it does not need to be a fully functioning webpage. It should include both text and graphics. The webpage should be well-organized.

Options for creating your webpage include:

- Hand-draw the assignment and then take a picture of it for submission to the assignment's dropbox.
- Hand-draw the assignment and then scan it for submission to the assignment's dropbox.
- Create a new file in a paint or graphics program and utilize the software to create an image. You can then submit your work to the assignment's dropbox.
- Create an actual HTML document in a web editing software program and utilize the software to create your webpage. You can then take a screen shot of your webpage or submit the actual HTML document.

If resources outside of this course are used to complete this assignment, please submit a Works Cited document. If you need assistance, visit the Developmental Module for information on citing any resources that you used. Once you have completed your webpage layout, please submit your work to the dropbox.

Checklist

As you create your webpage, please review the checklist below to ensure that you have included all of the needed items.

Your webpage layout should include all of the criteria listed below to receive full credit.	
Included?	**Item**
	The webpage includes a description and graphics/photos that illustrate the project clearly and effectively.
	The webpage includes a summary of the project, including your reasoning for its importance, the scope of its impact, how many people it will help, and what aspect of the environment your project targets.
	The information in the webpage is organized and any text is legible and clearly marked.
If outside resources are used to complete this assignment, please submit a Works Cited document. If you need assistance, visit the Developmental Module for information on citing any resources that you used.	
Included?	**Item**
	A Works Cited document is submitted, including any resources that you used to complete the assignment.
